

Sigma Survey for Police Officers

Report for:

SAM SAMPLE

Name from Answer Form

Answer Form Serial Number: 1

The results reported below are based on the above job candidate's responses to the *Sigma Survey for Police Officers*. These responses were read electronically from the answer form bearing the above serial number.

This report is designed to be used in conjunction with other information gathered during the candidate screening process. A final decision on this job candidate should be based on a combination of the results reported below and other sources, such as the job candidate's experience, references, and conduct during a job interview.

Explanation of Notes: The information reported in the *Notes* section indicates how many responses could not be read. Check the *Notes* section before interpreting the candidate's results.

Explanation of Percentile Scores: Percentiles refer to the percentage of people in a comparison group of job candidates who receive lower scores than the applicant. By definition, 50 is an average score. Also by definition, most people will score in the 40 to 60 percentile range.

This report should not be shown to the job candidate.

Notes:

There were no unreadable or duplicate responses.
