SAM SAMPLE

Serial Number: 0000001

Name from Answer Sheet

The results reported below are based on the above candidate's responses to the **SIGMA Survey for Security Officers (SSSO)**. These responses were read electronically from the answer sheet bearing the above serial number. The *Notes* section below indicates how many responses could not be read. Check the *Notes* section before interpreting the candidate's results.

This report is designed to be used in conjunction with other information gathered during the candidate screening process. A final decision on this candidate should be based on a combination of the results reported below and other sources, such as the candidate's experience, references, and conduct during a job interview.

This report is confidential. We do not recommend showing this report to the candidate. The user assumes all liability resulting from the release of this confidential information to unauthorized persons.

Notes:

There were no unreadable or duplicate responses.

Results:

	Percent Correct	Percentile Score	
Overall Score	86%	53	
Security Problem Solving	90%	63	
Incident Report Writing Aptitude	83%	51	
Spelling	86%	53	
Grammar and Punctuation	75%	50	

(Percentile Score scale: 0 10 20 30 40 50 60 70 80 90 100)

Percent Correct is the number of items on a scale that the candidate answered correctly divided by the total number of items on that scale.

Percentile Score indicates how well the candidate performed on a scale compared to the normative sample. For example, this candidate's percentile score on the Overall Score scale is 53, which means that 53% of the people in the normative sample received a lower score than the candidate.

For further information on interpreting results, refer to the test manual.
